

# Questions for Breakout Sessions

1. What knowledge do we have consensus on?
  - Are HMGs decreasing because of global warming?
  - Has the frequency of GLOFS changed?
  - How important are glaciers for freshwater supply to downstream populations?
2. Data availability vs data accessibility
3. What are the knowledge gaps? Research and geographical gaps.
  1. Local and country priorities, and capacity building.

# Tuesday (cont'd)

## *Topic 3: Impacts and adaptation to climate change*

- 10:50** *P.G. Dhar Chakrabarti*: "Climate change – its impacts and adaptation in India"
- 11:10** *Amir Muhammed*: "Impact of climate change in the Himalaya-Hindukush mountains on water resources and overall economy of Pakistan"
- 11:30** *Rakhshan Roohi*: "Glacier resources of Pakistan – their response to climate change and associated hazards"
- 11:50** *Stella Maris Navone*: "Adaptation to climate change on food security and livelihoods: Can humans act in time?"
- 13:15** Break-out sessions
- 17:00** **End of discussions.** The group leaders and rapporteurs cooperate in compiling results

# Wednesday

- 09:00** Rapporteurs present results from the break-out sessions. Plenary discussions on how results from the sessions affect each other. Presentations for the press.
- 12:00** **LUNCH**
- 12:45** Departure for the airport for those leaving at 1400h. Flights to Oslo at 1400, 1600, 1710 and 1840 (SAS) and 1640 (Norwegian)

## Thank you
